MEMORANDUM FOR

: Security Officer, DPD-DD/P

SUBJECT

: Briefing of Mr. James A. Garrison,  
Director of Logistics

1. During the past few months, I have had occasion to discuss workload, promotion and assignment and reassignment of personnel with Mr. Garrison. While I was able to discuss these areas in a general manner without enlarging on his CHALICE clearance, it has become increasingly difficult. Further, his questions on our programs indicate he is being informed through the DCS and DDI of GUSTO and possibly CORONA programs.

2. Accordingly, it is recommended that Mr. Garrison be more currently briefed on DPD programs so that he can be in a better position to support the Project and reduce speculation on DPD programs.
